STATUS OF FIRM:	Private Limited.

VISION AND MISSION

VISION

To be a global leader in providing innovative, high-performing equipment, recognized for unparalleled quality and reliability. We strive to create enduring value by maintaining the highest standards of integrity, fostering collaboration, and prioritizing employee well-being within a safe and inspiring work environment.

MISSION

To deliver superior, globally acclaimed equipment and exceptional service, driven by a team of expert engineers dedicated to excellence. We are committed to upholding core values of integrity and teamwork while nurturing professional growth and ensuring customer satisfaction through tailored solutions and unwavering support.

CEO MESSAGE

We are delighted to introduce you to Everyonic Technology (Pvt.) Ltd. We started this company to create change and challenge decade-old practices. We are committed to providing our customers with industry-specialized and tailored solutions as required. We ensure that it is competent to distinguish itself from other solution providers in the market by providing turnkey solutions and investing in our Prominent engineers to enhance their capabilities to develop innovative solutions.

Continuously adopt
new skills and
systems to drive
progress

CORE PRINCIPLES FOR SOCIAL CONTRIBUTION

01

INTEGRITY AND SOUND MANAGEMENT

To comply with laws and regulations while maintaining the highest ethical Standards

02

SOCIAL CONTRIBUTION VALUES

Ensuring alignment with the Corporate Mission Statement through nine concrete principles shared by all executives and employees.

03

INTEGRATED CORPORATE STRENGTH

Always act with a company-wide perspective to create no boundaries within the organization

INTRODUCTION

06

Offering cost-effective, high-value, and customer-oriented services with a focus on our unique core engineering domains

- Electric related panels, distribution system panel, Auto Panel System, and Earth jobs
- Power cable HT/LT Power Service Provider
- Sales, Services, Repairs
- Installation and through a team of dedicated and professional engineers, we are committed to commissioning of Diesel generators gas generators.
- Annual maintenance of client's generator
- Fabrication of sound proof canopies and Fuel Tank
- Generator on rental basis.
- Transportation Loading& Unloading

BTD-BUS TIE DUCT

We provide advanced energy distribution solutions through innovative busbar trunking systems designed for efficient power management. With a modular design, the systems allow for easy installation, expansion, and reconfiguration without disrupting operations. Suitable for a variety of applications, including buildings, factories, and modern infrastructure, these systems offer both bolt-on and plug-in current intake options for flexible power distribution. The range includes Air-Insulated Busbars for safe energy transfer and Compact (Sandwich Type) Busbars, which feature a space-saving

Design with reduced voltage drop and enhanced cooling. Supporting capacities from 100A to 6300A, these solutions are built for reliability, safety, and optimal energy transfer. Flexible tap-off boxes further enable secure and convenient power extraction at multiple points, ensuring seamless and efficient operation.

LV/ MV /SWITCHGEARS

Everyonic Technology (Pvt.) Ltd. specializes in delivering comprehensive electrical system solutions with a focus on LV/MV switchgear testing. Our team of skilled engineers and technicians is equipped to perform a wide range of specialized testing services, ensuring the safety, reliability, and efficiency of your electrical systems. These services include contact resistance testing, circuit breaker analysis (covering open and closing timing tests), and vacuum bottle tests (VCB). We also conduct AC/DC high voltage withstand tests, primary injection tests, and insulation resistance tests (IR) to assess system integrity. Additional services include thermography for heat detection, battery bank testing, and opening and closing coil tests to ensure optimal performance.

By combining technical expertise with advanced testing methodologies, we provide solutions tailored to meet the critical demands of modern electrical systems, enhancing operational reliability and performance.

RENEWABLE ENERGY SOLUTIONS

Everyonic Technology (Pvt.) Ltd. specializes in providing high-quality solar panels and comprehensive renewable energy solutions. With a steadfast commitment to integrity, efficiency, and innovation, we strive to deliver cutting-edge technologies that cater to diverse customer needs.

Our core philosophy emphasizes the development of energy-efficient solutions that not only enhance sustainability but also drive market advancement through continual technological innovation. By integrating advanced scientific principles with practical applications, we offer reliable products and unparalleled service to our customers. At Everyonic Technology, we are dedicated to being a leader in the renewable energy sector, working alongside global efforts to promote environmentally responsible energy practices. Our goal is to empower individuals, businesses, and industries to adopt sustainable energy systems, contributing to a greener, more energy-efficient future.

REVERSE OSMOSIS (RO)

Everyonic Technology (Pvt.) Ltd. offers complete solutions for Reverse Osmosis (RO) systems, including supply, installation, and commissioning. Our services are tailored to meet the specific needs of residential, commercial, and industrial clients, delivering efficient and cost-effective water purification solutions. With a team of skilled engineers and technicians experienced in water treatment, we provide high-quality systems that utilize advanced filtration technology to ensure clean and safe water.

In addition to installation, we offer comprehensive support through maintenance, repair, and after-sales services. Our eco-friendly RO systems promote water conservation, aligning with sustainable practices. Designed for versatile applications, our solutions are ideal for homes, offices, hotels, restaurants, and industries, ensuring reliable and efficient water treatment for every need.

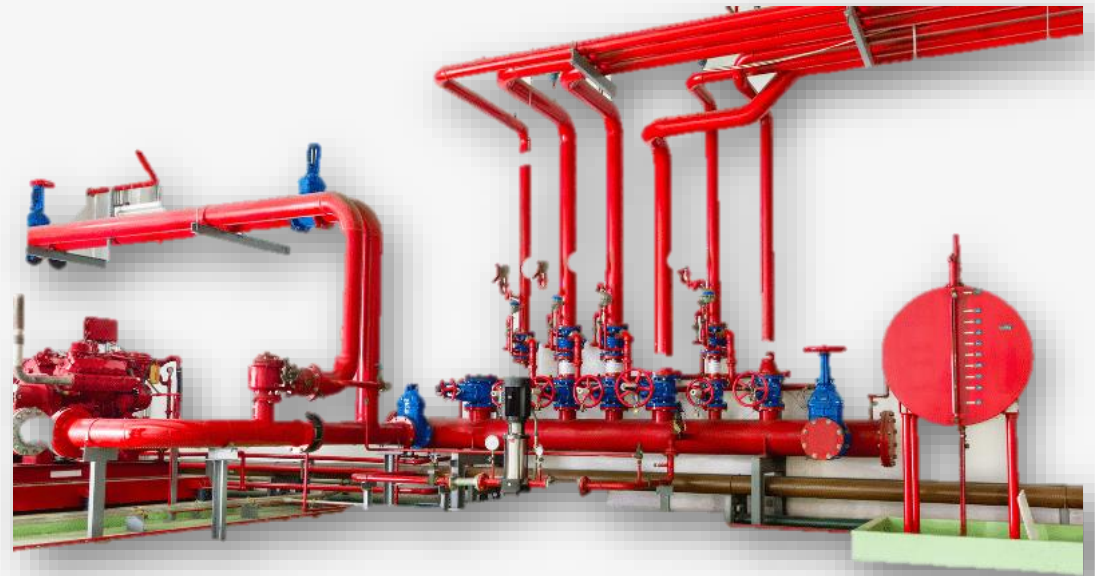

FIRE FIGHTING SYSTEM

Everyonic Technology (Pvt.) Ltd. is equipped with a dedicated team of highly experienced and skilled engineers and technicians, offering complete solutions for firefighting systems that adhere to strict safety standards. Our services include the supply and installation of fire alarm control panels of various required brands, as well as smoke and heat detectors. We also provide and install bells/sounders, manual call points, circuit wiring for fire alarm control panel

(FACP) power, and zonal wiring for components such as smoke detectors, bells, and manual call points. Additionally, we ensure thorough testing and commissioning of fire alarm systems to guarantee optimal performance and compliance with safety regulations.

With a commitment to excellence, Everyonic Technology delivers reliable and efficient fire safety solutions to meet the specific needs of our clients.

MECHANICAL ELECTRICAL & PLUMBING - MEP

We specialize in the installation and commissioning of various types of rotary and stationary mechanical equipment. Our HVAC services encompass heat exchangers and comprehensive heating, ventilation, and air conditioning solutions. Additionally, we provide expertise in piping networks, including erection, commissioning, and pipe insulation services. Our capabilities extend to the construction of both heavy and light

mechanical structures and vessels. Furthermore, we offer troubleshooting services for all mechanical systems and equipment, ensuring optimal performance and reliability.

We provide a range of power solutions, including electric power generation, transmission, and distribution. Our offerings encompass solar panels, transformers, motors, and generators, ensuring efficient and reliable energy management for various applications.

LIFT & ELEVATOR SOLUTIONS

Everyonic Technology (Pvt.) Ltd. has been providing complete vertical mobility solutions across Pakistan, including elevators, escalators, and moving walkways. Our expertise covers supply, installation, testing, commissioning, and after-sales services, ensuring reliable and safe performance for residential, commercial, and industrial projects.

Everyonic Technology (Pvt.) Ltd. is the exclusive distributor of Hengda Fuji Elevator Co. Ltd. (FUJIHD), China, and Axel S.R.L., Italy, enabling us to offer world-class, energy-efficient, and cost-effective vertical transportation systems.

Our Core Offerings

- Passenger Elevators – For residential and commercial buildings
- Hospital/Bed Elevators – Designed for healthcare environments
- Panoramic & Capsule Elevators – For malls, hotels, and modern architecture
- Cargo & Service Elevators – Heavy-duty lifts for industrial and logistics use
- Escalators & Moving Walkways – For malls, airports, and public spaces

HVAC HEATING, VENTILATION, AND AIR CONDITIONING

Everyonic Technology (Pvt.) Ltd. boasts a team of engineers and technicians with professional expertise in HVAC systems. Our offerings include light-commercial AC solutions, such as air-cooled chillers and modular chiller assemblies. We specialize in advanced HVAC technologies, including VRF (Variable Refrigerant Flow) systems, semi-industrial conditioners, DC Inverter Multi Pro systems, multi-split systems, and rooftop units. Additionally, we provide comprehensive solutions for ventilation, ducting, compressor-condensing units, DX systems, and fan coil units. Our products cater to a wide range of applications, ensuring efficient climate control and enhanced comfort across various commercial and industrial environments. We deliver complete solutions for the supply, installation, and commissioning of split-type air conditioning units, both brand-new and pre-owned.

INFORMATION TECHNOLOGY

Everyonic Technology (Pvt.) Ltd. offers a comprehensive range of information technology services designed to empower businesses with advanced digital solutions. Our expertise includes information security to protect critical data and systems from cyber threats and scalable cloud computing and hosting services for secure storage and seamless accessibility. We provide efficient server and

storage setups, high-performance wireless solutions for enhanced connectivity, and virtualization technologies to optimize IT infrastructure with virtual servers and networks.

Our services extend to the development of dynamic web and custom business applications, as well as cloud-based SaaS solutions to streamline operations and provide easy access to essential tools. We also offer outsourcing services to help businesses achieve their goals cost-effectively. Additionally, our

branding services focus on building and strengthening your company's market identity, while our digital marketing strategies—including SEO, social media management, and targeted advertising—help grow your digital presence and reach your audience effectively.

GENERATORS

Everyonic Technology (Pvt.) Ltd. specializes in the installation, testing, and commissioning of diesel and gas generators tailored to customer requirements. We work with major brands and offer a comprehensive range of services, including maintenance and servicing of diesel and gas generators, as well as testing and commissioning. Our offerings also include the supply and installation of auto mains failure and automatic transfer switches for generators, battery chargers, and power, control, and earth cables. We are dedicated to providing reliable solutions that meet the diverse needs of our customers.
